Alexandria, Egypt

EDUCATION

Georgia Institute of Technology

Master of Science in Computer Science, GPA: 4.00

Atlanta, USA

Expected 2028

Alexandria University

BSc in Electro-Mechanical Engineering, GPA: 3.25

Alexandria, Egypt

2025

EXPERIENCE

Software Engineer

Jan. 2025 – Present

Vivionify

France (Remote)

- Built [Kiro Travel](#), a ride-booking app live on Google Play, on Clean Architecture with BLoC/Cubit and a REST backend
- Shipped a second Flutter app for staff to dispatch rides, manage drivers, and handle bookings and billing, sharing the same backend
- Wrote the booking flows for taxis, airport shuttles, and ski transfers with Google Maps routing, Stripe payments, and Firebase push notifications
- Set up staging and production flavors, English/French localization, and continuous delivery to Firebase App Distribution

PROJECTS

CaloBuddy | *NestJS, PostgreSQL, React Native, Next.js, AWS, Docker*

calobuddy.com | [App Store](#)

- Built and shipped an AI-assisted calorie-tracking app to the App Store solo, spanning backend, mobile, and web
- Designed the NestJS backend on Clean/Hexagonal architecture with CQRS and Gemini-powered food parsing, deployed on AWS with Docker and GitHub Actions CI/CD

result_kit | *Dart*

pub.dev/packages/result_kit | [GitHub](#)

- Published an open-source Dart package for typed Result/Failure handling and async state machines, with full API documentation and test coverage
- Designed a network-agnostic error guard around an adapter interface, keeping the HTTP client pluggable rather than coupled to Dio

Fundship | *NestJS, PostgreSQL, Flutter, AWS, Docker*

- Built a collaborative finance platform with multi-tenant, role-based workspaces and a budgeting engine
- Engineered the NestJS backend on Clean/Hexagonal architecture with CQRS and lint-enforced dependency boundaries, deployed on AWS with Docker; building the Flutter client with BLoC

TECHNICAL SKILLS

Languages: TypeScript, Dart, JavaScript, Python, Java, Swift, SQL, C/C++

Backend: NestJS, Node.js, REST APIs, CQRS, Clean/Hexagonal Architecture, PostgreSQL, TypeORM

Mobile & Frontend: Flutter, React Native (Expo), Next.js, React, SwiftUI

DevOps & Tools: Docker, AWS, GitHub Actions CI/CD, Git, Firebase
